RE: Docket No. 98N-1265

Good morning,

My pharmacy from Wisconsin, the Women's International Pharmacy has informed me that my physician's right & my right to allow me to have a specially compounded drug, hormone replace therapy, is in big trouble. I am chemically sensitive and allergic to many medications. The HRT from the Women's International Pharmacy is the only one my body will tolerate.

It has been at least 5 years that I have been receiving this HRT drug. I do not want my right & choice to this drug restricted in any way! Furthermore, I do not want to be forced to use a patented synthetic drug that will harm my body, with no thought to my well-being.

Why don't you give this issue more thought?

Or would you prefer to take over my healthcare & medications....

Thank you,
